

OPPORTUNITIES

PROFESSIONAL DEVELOPMENT 16-17

Breakout EDU

Instructors: Megan Hanson, Aric Folden and Emily Nash

Date: March 28, 2017

Come experience a BreakoutEDU created by our Point team modeling beginning of the year expectations. Discover ways to incorporate this fun activity into your content and classroom.

- This is an informational flyer only. Sign up opportunities will be sent later.
- All sessions will be from 4:00 – 6:00 pm on their specified dates below
- Locations will be shown on the individual flyers sent out for each session
- All certified staff will be reimbursed at the standard PL hourly rate for attending

All Things Beginning Google

Instructors: Kim Hynek, Kent Noska and Amy Jabens

Date: 10/26/16

Beginning learning for Gmail, Docs, Forms, Google Classroom and Hacks. We will show you tips and tricks to make your digital life more productive. Work time will be incorporated into our session time.

Do I Have to Cite That Picture?

Instructors: Sarah Oldenkamp, Ernest Cox and Martha Wilding

Date: January 17, 2017

We will learn how to find and use images ethically in teacher resources as well as student projects. Participants will use Creative Commons, GWAEA resources, and web tools and have time to create resources.

Read Write Plus, Google Suite Training & Other Chrome Extensions and Digital Portfolios

Instructors: Patrice Becicka and Marija Musselman

Date: November 7, 2016

This session will cover Chrome Extensions and Digital Portfolios. You will explore the Read Write Plus and Google Suite Training Chrome Extensions and discover a way students can share their evidence of learning through a digital portfolio.

Learning Through a Lens: Things Teachers and Students Can Do With a Camera

Instructors: Rebecca Sammons and Courtney Coughlin

Date: February 7, 2017

We will share real life examples of how we have used cameras in our classroom and with our students to enhance and share learning. We will share a resource with many other ideas of how to use a camera, then you will have time to plan a way you can integrate the use of cameras into your classroom! This session is led by a kindergarten and 4th grade teacher, so examples will be focused on elementary students, but all grade levels are welcome!

Google Slides for the Win

Instructors: Tricia Ward, Brad Koch, Kelly Rudd and Courtney Templeton

Date: January 12, 2017

Google Slides for the Win was first presented by Jonathan Wylie: There is more to Google Slides than meets the eye. Learn how teachers are using this popular tool in brand new ways to bring new and innovative learning opportunities to students in their classrooms.

Using the Goose Chase App to Increase Student Engagement

Instructors: Tara Tolly and Laura Hahlen

Date: November 29, 2016

Looking for strategies to use technology to keep your students engaged? Design a scavenger hunt using the Goosechase app to create a list of missions for your students to complete. Complete a mission with us and begin to design a mission for your class.

Technology 101

Instructors: Mark Ganzeveld and Shay Huerter

Date: December 12, 2016

Become more proficient with the technology you have available in your classroom. This session will work through the basics of everything you would like to know but might be too embarrassed to ask. We will cover everything from overheads, document cameras, iPads, and Chromebooks.
